

CORONAVIRUS / COVID-19 STATEMENT

The Source to Site Holdings' position on China and Coronavirus

Dear Valued Customer,

Following the widespread coverage of the current events occurring in China and now across the globe, we have reviewed our position in terms of the challenges we may face in order to place ourselves in the best possible position to service our clients and partners.

Whilst a proportion of our inventory is manufactured in China, in maintaining our core strategy with regards to continually investing in our stockholding; Orlight remains in a fortuitous position, highlighting our uniqueness in this regard.

Currently, we are well-hedged with £12m stockholding in our facilities in the UK. However, it would, of course, be prudent for our customers to place orders in good time to ensure stock is held and any bespoke/specialist items can be manufactured in advance.

We do not manufacture items back to back upon receipt of an order, alternatively we will carefully utilise our stockholding to service client needs and subsequently commence new manufacture to replenish stock levels.

Whilst we will be keeping abreast of developments in terms of how the virus will impact our industry and subsequent government policy, with industry delays originating from the Far East, we believe it would be in good stead to ensure orders and call-off schedules are implemented in a timely fashion.

Accordingly, Orlight is positioned to cope with the demands arising due to concerns over the spread of COVID-19. Similarly, our customers can be reassured that through our continued investment into stock, we will look to maintain their business interests.

Should you wish to enquire about the availability of a specific product, please do liaise with your Sales Executive or Account Manager for more information. Alternatively, you may contact us at sales@orlight.com.
